Date: November 18, 2021

The information describes FN vaccines that have been recorded in PHIMS as of November 18, 2021. Since many communities do not have access to PHIMS directly we know many more doses have been administered in the communities but have not yet been recorded in PHIMS. We continue to work to address the delay so that the numbers we report more accurately reflect the excellent work going on in communities. Note that our reports need to be adjusted to include full information about 3rd doses but for now all we have is the number of people who have received a 3rd dose.

**Total Doses Administered**
- Total number of vaccinations: 213,040
  - 4365 First Nations received 3 doses
  - 100,031 First Nations people received 2 doses
